Trial ID: Powerrich2010 Protocol ID: Jar test
Location: Saskatoon, SK Study Director: Trent Knight
Investigator: Sonya Meier

This test was conducted at Ag Quest (Sask) Inc. field lab at Saskatoon, SK.
For each treatment a 500ml glass jar was filled with the maximum label rate of product tested, PowerRich fertilizer and water. Treatments were duplicated for both the water soluble powder and liquid forms of the PowerRich fertilizer. The jar was thoroughly shaken and observed after 1 hour and then 24 hours. Ratings were taken for precipitate, coagulation and layering at each time interval. All ratings were assessed as yes/no values. These were recorded as follows:
1=yes
0=no

Crop Name			Water solub>	Water solub>	Water solub>	Water solub>	Water solub>	Water solub>	liquid prod>	liquid prod>	liquid prod>	liquid prod>	liquid prod>	liquid prod>
